Dear Sirs,

We at the Indiana Dept. of Natural Resources wanted to extend our thanks to you for bringing the product Sheen Kleen to our attention. We use it at our Paynetown Marina fueling station facility on Lake Monroe and are very pleased with its effectiveness. Handling the small amount of fuel that sometimes drips from a patron's watercraft into the water is dealt with in a most effective manner using Sheen Kleen. We recommend the product highly.

Respectfully,

**Philip V. Wilson, Reservoir Specialist
Monroe Reservoir**
